TATA CONSULTANCY SERVICES - Sep 2015 - Present
Front End Developer

Projects

FrescoVibe (ongoing)
Front End Developer
React, Redux, Webpack, ES6/ES7, Babel, Styled components, React Router, Immutable Js, Redux Orm,Redux Saga, Redux form, react loadable, Eslint, Workbox, Lighthouse.
FrescoVibe is a blogging app like Medium powered by React/Redux. We have used Workbox for service worker and lighthouse for performance measurement.

FrescoPeak
Hybrid App Developer
CSS3, HTML5, Angular,Cordova, Ionic, Gulp, Bower, NPM
FrescoPeak is a performance tracking app. Users can continuously track their work performance based on goals provided by their respective supervisors. We have used a two-

layered authentication involving 4-digit security pin and SMS-based OTP. Also, this app is restricted to unique device for a specific user.

FrescoPlay
Hybrid App Developer
CSS3, HTML5, Angular,Cordova, Ionic, Gulp, Bower, NPM
FrescoPlay is a digital learning app like Lynda. Users can learn various technologies by reading contents, watching videos and completing quizzes. Users can monitor where they stand among all users of this app.
